

ICD-9 CODES

New York State law mandates that all medical laboratory requisitions include an ICD-9 Code. We cannot process your biopsy without this code, so please be sure to include it.

Abnormal clinical findings (but normal path findings) (796.4)
Abscess, bone, jaw (526.4)
Abscess, gingival (523.30)
Abscess, with sinus/fistula (522.7)
Acanthosis (528.9)
Acrochordon (Look-up ICD-9 code)
Actinic keratosis (702.0)
Actinic cheilitis (692.72)
Actinomycosis, cervico-facial (039.3)
Acute and chronic inflammation, jaw (526.4)
Acute inflammation, mouth (528.00)
Acute osteomyelitis (526.4)
Acute sialadenitis (527.2)
Adenocarcinomas (Look-up ICD-9 code)
Amalgam tattoo (998.4)
Amyloidosis (277.39)
Aneurysmal bone cyst (526.2)
Anomaly, tooth (520.2)
Aphthous ulcer (528.2)

Bacteria (041.9)
Benign fibro-osseous lesion, maxilla (except fibrous dysplasia) (213.0)
Benign fibro-osseous lesion, mandible (except fibrous dysplasia) (213.0)
Benign lymphoepithelial lesion / BLEL (527.8)
Benign migratory glossitis (529.1)
Bisphosphonate-associated osteonecrosis / BON (526.89)
Black hairy tongue (529.3)
Bone marrow, normal (799.9)
Bone, necrotic (526.4)
Bone, normal (799.9)
Bone, sclerotic (733.90)
Burning mouth (529.6)

Caliber persistent artery (747.60)
Candidiasis (112.0)
Carcinomas (Look-up ICD-9 code)
Carcinoma-in-situ (230.0, 232.0)
Cemento-ossifying fibroma, central, mandible (213.1)
Cemento-ossifying fibroma, central, maxilla (213.0)

Central giant cell granuloma (526.3)
Cherubism (526.89)
Cholesterol granuloma of the jaws (526.4)
Choristoma (210.x, benign neoplasm by location)
Chronic gingivitis (523.10)
Chronic inflammation of the jaws (526.4)
Chronic osteomyelitis (526.4)
Chronic periodontitis (523.40)
Chronic sclerosing sialadenitis (527.2)
Chronic sialadenitis (527.2)
Cinnamon stomatitis (528.00)
Condyloma acuminatum (078.11)
Cutaneous horn (701.1)
Cyst (aneurysmal, hemorrhagic, traumatic) (526.2)
Cyst of undetermined origin (526.2)
Cyst, oral benign lymphoepithelial (528.4)
Cyst, botryoid odontogenic (526.0)
Cyst, dentigerous (526.0)
Cyst, developmental, n.o.s. (526.1)
Cyst, epidermoid/epidermal, mucosal (528.4)
Cyst, epidermoid/epidermal, skin (706.2)
Cyst, gingival (523.8)
Cyst, incisive canal (526.1)
Cyst, lateral periodontal (526.0)
Cyst, nasopalatine duct (526.1)
Cyst, paradental (526.0)
Cyst, periapical/radicular/apical (522.8)
Cyst, residual (522.8)
Cyst, salivary duct (527.8)
Cytologic smear, benign (796.4)

Demodex sp. (133.8)
Dental follicle (520.9)
Dental follicle, hyperplastic (526.9)
Desquamative gingivitis (694.9)
Ductal ectasia (527.8)
Dysplasia, epithelial, except ca-in-situ (528.79)

Elastosis (692.74)
Epithelial and fibrous hyperplasia (528.9)
Epithelial dysplasia (528.79)
Epithelial hyperplasia (528.9)
Epulis fissuratum (inflammatory fibrous hyperplasia) (528.9)
Erythema migrans (geographic tongue) (529.1)
Exostosis (526.81)

Fibroepithelial hyperplasia (528.9)
Fibroepithelial polyp (benign lesion, by site)
Fibrolipoma (214.8)
Fibroma (benign lesion, by site)
Fibroma, giant cell (210.x, benign neoplasm, by site)
Fibro-osseous lesion, benign, mandible (except fibrous dysplasia) (213.1)
Fibro-osseous lesion, benign, maxilla (except fibrous dysplasia) (213.0)
Fibrosis (528.9)
Fibrous dysplasia, jaw (526.89)
Fibrous papule of the nose (216.3)
Filiform papilla, hyperplastic (529.3)
Fistula, cutaneous (686.9)
Fistula, oral (528.3)
Fistula, salivary gland (527.4)
Focal cemento-osseous dysplasia (213.0 maxilla, 213.1 mandible)
Focal epithelial hyperplasia (Heck's disease) (528.79)
Follicle, dental, hyperplastic (526.0)
Follicle, lymphoid, hyperplastic (526.9)
Folliculitis, skin (704.8)
Fordyce granules (750.26)
Foreign body granuloma, oral (528.9)
Foreign body granuloma, skin (709.4)
Foreign body, mouth (935.0)
Furuncle, skin (680.0)

Geographic tongue (529.1)
Giant cell fibroma (benign lesion, by site)
Giant cell granuloma, central (526.3)
Giant cell granuloma, peripheral (523.8)
Gingivitis (523.10)
Gingivitis, hyperplastic (523.10)
Glossitis, n.o.s. (529.0)
Granular cell tumor (210.x, benign neoplasm, by site)
Granulation tissue (528.9)
Granuloma, foreign body, oral (528.9)
Granuloma, periapical / radicular (522.6)
Granuloma, pyogenic (528.9)
Granuloma, suture (998.4)
Granulomatous inflammation, oral (528.9)

Hamartoma, odontogenic (maxilla 213.0, mandible 213.1)
Hemangioma, oral (capillary, cavernous, cellular) (228.09)
Hemangioma, skin and subcutaneous tissue (228.01)
Hematopoietic bone marrow (289.9)
Herpes virus infection (054.2)
Hypercementosis (521.5)

Hyperkeratosis, except alveolar ridge (528.6)
Hyperkeratosis, alveolar ridge (528.7)
Hyperplasia, adenomatoid (527.1)
Hyperplasia, fibro-epithelial (528.9)
Hyperplasia, focal epithelial (Heck's disease) (528.79)
Hyperplasia, gingival (523.8)
Hyperplasia, inflammatory fibrous (epulis fissuratum) (528.9)
Hyperplasia, lymphoid (785.6)
Hyperplasia, sebaceous, oral (528.9)
Hyperplasia, sebaceous, skin (706.8)

Idiopathic oral pain (729.2)
Inflammation, oral (528.00)
Inflammatory fibrous hyperplasia (epulis fissuratum) (528.9)
Inflammatory papillary hyperplasia (528.9)
Insufficient for diagnosis (799.9)
Intraductal papilloma (210.4)
Inverted ductal papilloma (210.4)

Keratoacanthoma, by location (Look-up ICD-9 code)
Keratocyst, odontogenic (OKC) (maxilla 213.0, mandible 213.1)
Keratocystic odontogenic tumor (maxilla 213.0, mandible 213.1)
Keratosis, not on alveolar ridge (528.6)
Keratosis, alveolar ridge, minimal (528.71)
Keratosis, alveolar ridge, excessive (528.72)
Keratosis, seborrheic (702.19)
Keratosis, smokeless tobacco (528.6)
Keratosis, solar/actinic (702.0)

Lichen planus (697.0)
Lichenoid mucositis, n.o.s. (528.00)
Lichenoid mucositis, drug-induced, anti-neoplastic therapy (528.01)
Lichenoid mucositis, drug-induced, other (528.02)
Lipoma, skin, face (214.0)
Lipoma, skin other than face (214.1)
Lipoma, specified site (214.8)
Lipoma, unspecified site (214.9)
Lupus erythematosus, discoid (695.4)
Lupus erythematosus, systemic (710.0)
Lymphadenitis (289.3)
Lymphangioma (228.1)
Lymphoid tissue, normal (799.9)
Lymphoma, by location (Look-up ICD-9 code)

Median rhomboid glossitis (529.2)
Melanin incontinence (melanoplakia) (528.9)

Melanoacanthoma (528.9)
Melanosis (528.9)
Melanotic macule (528.9)
Morsicatio (buccarum, linguarum) (528.9)
Mucinosi, oral focal (528.9)
Mucocele (527.6)
Mucocele, sinus (478.19)
Mucosa, normal (799.9)
Mucositi/stomatiti, n.o.s. (528.0)
Mucous extravasation phenomenon (527.6)
Myofascial pain (524.60)

Nasal polyp (471.9)
Necrotizing sialadeniti (527.2)
Neoplasm, benign, floor of mouth (210.3)
Neoplasm, benign, lip (210.0)
Neoplasm, benign, tongue (210.1)
Neoplasm, benign, oral (210.4)
Neoplasm, benign, skin of lip (216.0)
Neuralgia, n.o.s. (729.2)
Neuroma, traumatic, head and neck, superficial (957.0)
Nevus, skin (junctional, compound, intradermal) (216.3)
Nevus, mucosal (junctional, compound, intramucosal) (210.x, benign neoplasm, by site)
Nevus, sebaceous (702.8)
Nicotine stomatiti (528.79)
No diagnosis rendered (799.9)
No evidence of disease (796.4 or 799.9)
Non-diagnostic (796.9)
Non-specific ulcer (528.9)
Normal tissue structures (796.4 or 799.9)

Orthokeratinized odontogenic cyst (526.0)
Odontogenic keratocyst (OKC) (maxilla 213.0, mandible 213.1)
Odontoma (maxilla 213.0, mandible 213.1)
Oral focal mucinosi (528.9)
Oral submucous fibrosi (528.8)
Organizing thrombus (453.9)
Ossifying fibroma, central (maxilla 213.0, mandible 213.1)
Ossifying fibroma, peripheral (210.x, benign neoplasm, by site)
Osteoma (maxilla 213.0, mandible 213.1)
Osteomyeliti, acute (other specified site) (730.08)
Osteomyeliti, chronic (730.18)
Osteomyeliti, sclerosing (526.4)
Osteonecrosi, bisphosphonate-associated (526.89)
Osteoporotic bone marrow defect (526.89)
Osteopetrosi (756.52)

Paget disease of bone (731.0)
Pain, TMJ (524.62)
Palisaded encapsulated neuroma (210.x, benign neoplasm, by site)
Papilla, hypertrophic filiform (529.3)
Papilloma, laryngeal (212.1)
Papilloma, nasal (212.0)
Papilloma, oral squamous (210.x, benign neoplasm, by site)
Parulis (522.7)
Pemphigoid (694.60)
Pemphigus (694.4)
Periapical cemento-osseous dysplasia (213.1)
Periapical scar (526.4)
Pericoronitis (526.0)
Periodontitis, acute (523.33)
Periodontitis, chronic (523.40)
Peripheral ossifying fibroma (210.x, benign neoplasm, by site)
Peripheral giant cell granuloma (523.8)
Phlebolith (451.9)
Plasma cell gingivitis (523.9)
Plasmacytoma (238.6)
Pleomorphic adenoma (210.x, benign neoplasm, by site)
Polymorphous low-grade adenocarcinoma (Lookup ICD-9 code)
Polyp, antral, maxillary sinus (471.8)
Polyp, nasal (471.9)
Pyogenic granuloma (528.9)

Ranula (527.6)
Retrocuspid papilla (528.9)
Root fragment/tip (525.3)

Sarcomas (Lookup ICD-9 code)
Scar (528.9)
Scar, periapical (526.4)
Schwannoma (210.x, benign neoplasm, by site)
Sclerosing sialadenitis (527.2)
Seborrheic keratosis (702.19)
Sequestrum (526.4)
Sialadenitis, acute or chronic (527.2)
Sialolith (527.5)
Sialometaplasia, necrotizing (527.9)
Sinonasal papilloma (212.0)
Sinonasal polyp (471.8)
Sinus mucocele (478.19)
Sinus tract (528.3)
Sinusitis, acute, maxillary sinus (461.0)

Sinusitis, chronic, maxillary sinus (473.0)
Sjögren's syndrome (710.2)
Skin tag (face 216.3, neck 216.4)
Smear, benign cytologic (796.4)
Smokeless tobacco keratosis (528.6)
Solar elastosis (692.74)
Solar keratosis (528.6)
Squamous cell carcinoma (malignant neoplasm, by site)
Squamous papilloma (210.x, benign neoplasm, by site)
Stafne cavity / defect (526.89)
Stomatitis, nicotine (528.79)
Submucous fibrosis, oral (528.8)
Supernumerary tooth (520.1)
Surgical ciliated cyst (478.19)
Suture granuloma (998.4)

Tattoo (amalgam) (998.4)
Tattoo (graphite, ink) (935.0)
Thrombosed varix (456.8)
Thrombosis (453.9)
TMJ pain (524.60)
Tooth anomaly (520.2)
Tooth fragment (520.9)
Tooth (with "gross only") (520.6)
Tonsil, hyperplastic (474.11)
Tortuous peripheral artery, unspecified site (747.60)
Torus (mandibularis, palatinus) (526.81)
Traumatic neuroma (957.0)
Traumatic ulcerative granuloma with stromal eosinophilia (TUGSE) (528.9)

Ulcer, aphthous (528.2)
Ulcer, n.o.s. (528.9)

Varix (456.8)
Vascular anomaly (747.69)
Venous lake (456.8)
Verruca vulgaris (078.10)
Verruciform xanthoma (528.9)
Verrucous carcinoma (malignant neoplasm, by site)
Vesiculo-bullous disease, n.o.s. (694.60)

Xanthoma, verruciform (528.9)
Xerostomia (527.7)
